

DCPS Distance Learning Plan

ECE Self-Contained Classrooms ELS, CES, DHOH, HHIP, & MES

ECE Grade Self-Contained Distance Learning

Dear Students and Families,

We hope you are safe and healthy while you are out of school and learning from home! Your IEP aligned assignments are planned to address both content and skills that you've already covered this year — to both retain and generalize your learning. Your child has complete access to all learning materials developed by DCPS. We encourage you to explore and engage in the grade level content that is most appropriate for your child.

Children thrive in routine and predictability. While at school, children often are provided with multiple opportunities to practice skills in various settings and with various materials. We recommend that these activities continue while your child is at home to further support critical thinking, expressive language, vocabulary building, problem solving, alphabet knowledge, fine motor skills, and critical areas in their IEP's.

Teachers and related service providers have developed carefully selected experiences for you and your child to practice at home. Be sure to follow the directions provided throughout the lessons! We also encourage you and your child to explore all of the content available to DCPS students.

We recommend that you spend the suggested times per day working on these tasks, as we've outlined in the Learning Plan below, but you can decide how best to organize your work and spread it out across the week.
